GrüVbox believes that a party should be for the people. They aim to please. Being a totally LIVE band (with no backingpre-recorded tracks), they complete the show through their dynamic and spontaneous ability to READ-&-PLAY-TO-THE-CROWD, an art form in itself. The effect: the band and the crowd become one! GrüVbox understands and practices this concept by playing to the crowds desires. This means that they can play either, a variety of eras, OR, with an emphasis on one or multiple eras for your event! They are also known to learn songs for your event, with proper notice. The crowd pleasers they perform are not limitless!

"Thank you for your support of Pioneer Courthouse's 2003 NYE Celebration. The event was vastly more successful than we ever anticipated and drew more than 10,000 people to the heart of downtown Portland... Please accept our gratitude for your help in making Portland's 2003 NYE event such a great success. We look forward to working with you again on future projects."

Gordon Sondland – President Pioneer Courthouse Square

"...I can't be emphatic enough: GrüVbox is FANTASTIC. I tried to stay off the dance floor, but they made it too damn hard. Even when I tried to take a break, I couldn't help but move to their beat. And as good as they were to listen to; they were really attractive to watch. That's a first class band and they made the party a first class joint. Thank you for recommending them. You can be sure that's not the last time they do a gig in that venue."
